MARKETS WE SERVE

Our diverse solutions meet current market trends, where consumers seek convenient, sustainable and affordable products in a wide variety of formats.

THE NEW PLASTIC ECONOMY GLOBAL COMMITMENT

PACCOR has signed The New Plastic Economy Global Commitment to eradicate plastic waste and pollution.

CIRCULAR EVENTS

Our initiative which stimulates sustainability awareness and supports event organisers to turn single-use plastic products into valuable resources.

OUR FOOD SERVICE PORTFOLIO

We offer our customers a broad range of standardised and customised cups, pots and containers to meet their diverse needs.

FOREWORD

WE PROTECT WHAT IS WORTH PROTECTING

There is no doubt: packaging has an important role to play in protecting food and other important goods and makes a huge contribution to our society. This is the reason why designing, developing and distributing innovative packaging solutions is our passion.

Together, because we care, CITY PACK (member of ENPI GROUP) and PACCOR are proud to announce their exclusive partnership, that will connect European standards of sustainability while capturing regional growth potential in the Middle East and Africa. PACCOR's innovative environmentally friendly products will be available to all our customers in the region, driven by the shared value of responsibility towards our families and planet.

Our mission is to protect our customers' goods by providing high quality and state-of-the-art solutions. The lightness and durability of the materials we have been developing in past years make them intrinsically more sustainable than most alternatives. By creating a culture of "CARE" for materials along the value chain, PACCOR enhances resource efficiency, leading to improved resource usage as well as reductions in emissions, energy and waste.

We are very pleased that City Pack, with whom we share the same vision for business, has become our partner. It is a new chapter in the Middle East and Africa in offering truly sustainable packaging solutions.

The warmth of our region has a reflection on everything around us, it is reflected on our culture, activities and human relations. "CARE" has been always a sign of warm relations, and "Because We Care" City Pack has chosen to live responsibility for our families and planet.

City Pack has always chosen solutions and partners that support and share our vision and mission. PACCOR's "CARE" strategy and values have impacted the full range of innovative and sustainable packaging solutions. It is our shared commitment to start together a journey of supplying our region with a range of products that has been produced with "PROVEN" favorable impact on our planet, Because We Care.

Nicolas Lorenz, Chief Commercial Officer PACCOR

Mostafa Shawky, General Manager CITY PACK

MARKETS WE SERVE

*From packaging for dairy to solutions for non-food products:
As a leading international manufacturing company, we are
dedicated to providing sustainable solutions that enhance the safety,
quality and convenience of our customers' goods.*

Thanks to our large product portfolio and our approach of local partnership, we are a leader in manufacturing and distributing packaging solutions. Our priority is to anticipate our customers' requirements and to provide value-added solutions. Therefore, we continuously improve and develop our products, working together with respected global brands. Our decades of comprehensive technological expertise enable us to offer our customers a broad range of standardised and customised cups, pots and containers to meet their diverse needs.

Whether spreadable cheese or dairy and oil spreads: our solutions meet current market trends, where consumers seek convenient, sustainable and affordable products in a wide variety of formats. We deliver high-performance solutions with rigid and flexible packaging that add real value to our customer' products by optimizing their protection, nutritional value and shelf-appeal. A passion for the highest quality and efficiency drives us and provides peace of mind for our customers, from concept to market. We ensure unrivalled consistency and brand integrity across all of our processes, as well as our product formats and substrates, and use state-of-the-art decoration techniques and processes to deliver unrivalled on-shelf advantages.

Furthermore, we offer high-quality solutions for products such as dairy and ice cream. No matter if our customers are in need of safe packaging solutions for spoonable or drinking yoghurts, cream and crème fraîche or sour milk drinks – we have a wide variety of solutions that fulfill all the criteria of protecting these delicate goods.

We also serve the needs of the fresh produce industry, from field to fork. Through our commitment to sustainability and to reducing global food waste, our models support the entire packaging journey, beginning with pre-harvesting growing solutions all the way through to specialty extrusions, scientific shelf-life interventions and award-winning printing across multiple formats. In addition to this, we supply a comprehensive range of packaging for the food service industry such as vending and drinking cups, tumblers, bowls, plates, trays, containers with lids and more. Our range of products also includes trade items, to create a one-stop shipping solution for our customers. To round out our offerings, we also provide packaging solutions for the non-food market. From home care to lawn care to healthcare, we provide an unrivalled breadth of products for some of the most respected brands in the world.

THE NEW PLASTIC ECONOMY GLOBAL COMMITMENT

PACCOR is among the more than 450 organisations that have signed The New Plastics Economy Global Commitment. Signatories include an impressive range of the world's largest packaging producers, brands, retailers and recyclers, as well as governments and NGOs.

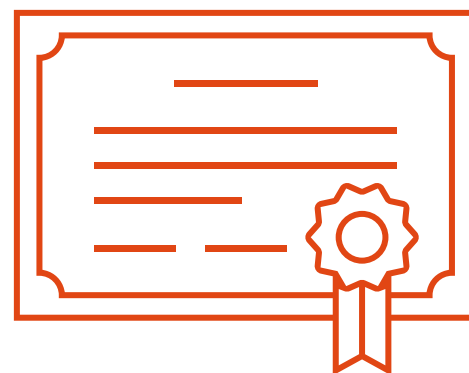

PACCOR has signed The New Plastic Economy Global Commitment to eradicate plastic waste and pollution. It requires that 100% of plastic packaging can easily and safely be reused, recycled or composted by 2025.

We take this commitment very seriously on behalf of all our business partners. For us, this translates into:

WE ARE A MEMBER OF THE:

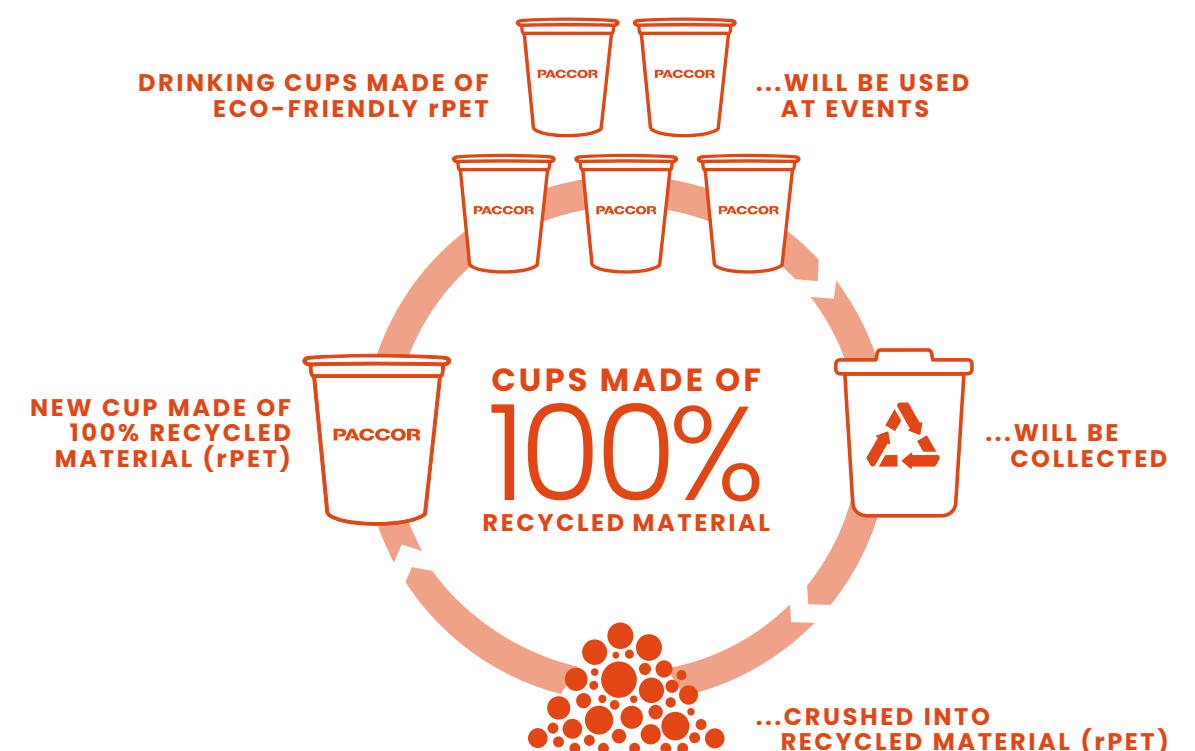

- Circular Plastic Alliance (PETcore Europe)
- Elipso (France Plastics Industry Association)
- WRAP (U.K. Plastics Industry Association)
- IK Industrievereinigung (Germany Plastic Association)
- ANAIP (Spain Plastic Association)

- 1 Optimizing product design and material use and creating innovative solutions to deliver 100% recyclable products by 2023
- 2 Increasing the amount of recycled materials made in new products
- 3 Developing and offering sustainable packaging solutions without compromising food safety, while respecting the health, safety and rights of all people involved
- 4 Improving constantly our processes

CIRCULAR EVENTS

PACCOR has launched a new project called "Circular Events". An initiative which stimulates sustainability awareness and supports organisers of events to turn single-use plastic products into valuable resources for future products.

The whole process is composed of the following steps: beverage and food plastic containers used during big assemblies, such as music concerts, shows or sport performances are collected and transported to specialised recycling partners, then crushed and

recycled to avoid ending up in landfills or being incinerated. Afterwards, the material will be used in PACCOR's manufacturing sites to produce new cups made of 100% recycled material (rPET), closing the loop of our drinking cups.

COOPERATION IN THE MIDDLE EAST – PACCOR AND CITY PACK TOGETHER

Together, because we care, CITY PACK (member of ENPI GROUP) and PACCOR are proud to announce their exclusive partnership, that will connect European standards of sustainability while capturing regional growth potential in the Middle East and Africa. PACCOR's innovative environmentally friendly products will be available to all our customers in the region, driven by the shared value of responsibility towards our families and planet.

City Pack manufactures disposable food packaging solutions for institutional catering companies across all sectors including but not limited to hotels, hospitals, restaurants, bakeries, airlines, and ship handlers. The focus is on modern ecofriendly packaging that help maintain the natural freshness of the food content inside. The portfolio of products is extensive and includes more than 3,500 items, ranging from plastic and catering equipment (plastic & aluminum containers, foils, cling films, paper & foam cups, deli take away containers etc.) to biodegradable as well as hygiene products, which are being exported throughout the Gulf region, Africa, and parts of Europe.

City Pack is a member of ENPI GROUP, established in 1995, as a manufacturer of packaging and plastic materials. Today with massive production across 9 facilities, we are one of the most diversified printing and packaging companies nationwide. We are currently fully operational in UAE and KSA and expanding within GCC, MENA, Africa, Europe and other parts of the world.

SUSTAINABLE SOLUTION

CITY PACK plays an important part in the food and beverage supply chain, whilst at the same time fulfilling our role as a valuable member of the communities that we serve. We are committed to change the industry to more cyclicity and sustainability. More than 40% of our products are either bio-degradable, or eco-friendly.

Because we care we are "Responsible" to ensure that all our products have the least possible unfavourable impact on our health, safety and environment.

Because we care we are "Transparent" about all the ingredients and content of our products and the actual usable material our customers trust us to supply at optimum cost and premium quality. Because we care we are "Partners" with our

Customers, suppliers and team members. We believe that professional partnership is not the one that sets the personal aspects aside; on the contrary; we value and seek feedbacks and personal needs, we believe that individual requirements are key in feeding our innovation pipeline and being always ready to achieve our partners delight.
